

SRAVAN REDDY THOKALA

Chennai, Tamil Nadu, India | +91 8008860666 | sreddy26@gmail.com

PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate currently pursuing a B.Tech at SRM Institute of Science and Technology and seeking a Data Analyst Internship. Proficient with data analysis tools and languages including Python (Pandas), SQL, and Excel, collecting, cleaning, and analyzing large datasets and developing and maintaining dashboards and reports in Power BI and Tableau to track key metrics. Identifies trends and insights from consolidated data and performs ad-hoc data analysis, presenting findings clearly to non-technical audiences through reports and presentations. Collaborates with cross-functional teams to understand data requirements, and brings strong analytical and problem-solving skills, excellent communication and teamwork abilities, and the ability to work independently and manage multiple tasks. Enthusiastic about contributing to data-driven initiatives.

TECHNICAL SKILLS

Data Analysis Tools: Data collection, data cleaning, exploratory data analysis, ad-hoc data analysis, large datasets, trends and insights, descriptive statistics, data validation

Programming & Query Languages: Python (Pandas, NumPy), SQL, Oracle SQL, JavaScript, TypeScript, C

Data Visualization & Reporting: Power BI, Tableau, dashboards and reports, key metrics tracking, presentations, Excel and Google Sheets charts

Databases & Data Modeling: Relational data models, schema design, multi-table joins, subqueries, aggregate functions, DBMS

Tools & Platforms: Excel, Google Sheets, Google Colab, Jupyter Notebook, VS Code, Git, GitHub, macOS, Windows

Core Competencies: Analytical and problem-solving skills, communication and teamwork abilities, ability to work independently, manages multiple tasks, enthusiasm for learning, cross-functional collaboration, Telugu (native), English (proficient), Hindi (basic)

PROFESSIONAL EXPERIENCE

Data Analyst Intern | SVIMS - Sri Venkateswara Institute of Medical Sciences | Tirupati, India May 2026 - Jul 2026

- Collected, cleaned, and analyzed large clinical research datasets in Python (Pandas), automating repetitive data preparation steps.
- Developed and maintained Power BI and Tableau dashboards and reports tracking key metrics for clinical and research staff.
- Wrote SQL queries using joins, subqueries, and aggregate functions to consolidate research data across multiple relational tables.
- Identified trends and insights from consolidated datasets and presented findings clearly to staff without technical backgrounds.
- Collaborated with cross-functional clinical and research teams to understand data requirements and deliver ad-hoc analysis.
- Owned assigned tasks independently, worked to agreed deadlines, and gave regular progress updates to supervising staff.

PROJECTS & ADDITIONAL EXPERIENCE

- Oracle SQL Lab Work: Designed and optimized queries against relational data models using joins, subqueries, and aggregate functions.
- Dashboard Design Practice: Built Power BI and Tableau dashboards focused on readability, chart selection, and key metrics.
- Python Data Utilities: Built command-line tools for file read/write and dataset processing with try/except error handling.
- Version-Controlled Codebase: Maintained coursework and project code in GitHub using commits, branches, and pull/push workflows.
- React Native Development: Built cross-platform mobile interfaces with React components, state, props, and REST APIs.
- Active participant in campus coding clubs and technical workshops on programming and problem solving.

EDUCATION

SRM Institute of Science and Technology - B.Tech., Computer Science & Engineering Aug 2025 - May 2029

- Specialisation: CSE Core. Computer science and information technology coursework: DBMS, Python Programming, OOP, Computer Networks, Software Engineering.

Higher Secondary (Class XII) - Mathematics, Physics, Computer Science, Economics

May 2025

CERTIFICATIONS & LEARNING

CS50x Introduction to Computer Science (Harvard/edX) | Python for Everybody (Coursera) | Git & GitHub Foundations | Oracle SQL Basics (SRMIST)
